St. Louis de Montfort Mission Statement
We are called to be and to become a loving family centered in Jesus.
We acknowledge and accept that each of us is unique and has special gifts from the Holy Spirit.
We wish to nurture, develop and share these gifts within and for the Body of Christ.
Having been called by Baptism into that Body, We celebrate our relationship in Word, Sacrament and Family Celebration.
We are then sent to call others to Christ through who we are and what we do.
We recognize Christ’s call to be one in Him and commit ourselves to his way of life.

**DID YOU KNOW?** Young people who abuse alcohol are prey of perpetrators

According to the 2011 Monitoring the Future Survey, 70 percent of high school seniors and 33 percent of eighth graders have experimented with alcohol. Young people who abuse alcohol are more likely to have impaired judgment compared to those who do not. They are prone to making poor decisions, which can result in risky behavior such as driving while intoxicated, sexual activity, or violence. Young people who drink are also more likely to become victims or perpetrators of physical or sexual assault. In addition, recent research has shown the human brain continues to develop well into a person's twenties. Alcohol use at a very young age can significantly affect brain development.

**SABIA USTED?** Jóvenes que abusan el alcohol son presa de perpetradores

Según la Encuesta de Monitoreo del Futuro del 2011, 70 por ciento de los estudiantes de último año de la preparatoria y 33 por ciento de los estudiantes de octavo grado han experimentado con alcohol. Los jóvenes que abusan alcohol son más propensos a tener un mal juicio comparado con los que no lo hacen. Ellos tienden a hacer pobres decisiones, que pueden resultar en un comportamiento riesgoso como conducir mientras están intoxicados, actividad sexual o violencia. Los jóvenes que toman también son más propensos a convertirse en víctimas o perpetradores de asalto físico y sexual. Además, recientes investigaciones han mostrado que el cerebro humano continúa desarrollándose hasta bien avanzados los veinte años. El uso de alcohol a una edad temprana puede afectar significativamente el desarrollo cerebral. Para una copia del artículo de VIRTUS® “Abuso de alcohol: estadísticas y riesgos para los niños” (Alcohol abuse - the statistics and the risks for children), escriba un email a jvienna@la-archdiocese.org.
